Subject: You Are Officially an APR Member!

If you can't see this email click [here](#).

Welcome to the Association of Plastic Recyclers!
Through your membership you help APR shape the future of plastics recycling.

Who is APR?

APR is an international trade organization representing the plastics recycling industry and APR member companies shape the future of our industry. Membership spans the entire industry including:

- Reclaimers
- Chemical Recyclers
- Brand Owners
- Equipment Manufacturers
- Testing Laboratories
- Research Teams
- MRF Operators
- Technical Consultants
- Label & Ink Manufacturers
- Film & Flexible Packaging Manufacturers
- Converters
- Resin Manufacturers
- Certifying Companies

- And More

For a full listing of APR Member Companies, please use the member directory in your [GlueUp Account](#). As The Voice of Plastics Recycling®, APR advocates the recycling of all plastic, and our goal is simple: we want to increase the amount of plastic material that is recycled.

Members-Only Resources

As a member of APR, your company now receives access to exclusive resources. You can find these in [GlueUp](#), on the communities page. These resources include access to presentations and documents from previous APR meetings, as well as letter templates, graphics, and talking points for communicating with local media and elected representatives.

Please do not share your credentials for your GlueUp account. The primary member of your organization can add additional users for your organization to GlueUp through the membership management page of their GlueUp account.

Stay Up-to-Date with APR

APR communicates with the membership primarily through email, including semi-monthly newsletters. You have been added to the email distribution list. **If there are others at your company who would like to receive APR updates**, please have the primary member of your organization add those user to GlueUp through the membership management page of their GlueUp Account.

APR does NOT sell member contact information, including email addresses.

Attend APR Meetings

APR Membership Meetings are held three times each year in various locations throughout North America. The first meeting of the year is held in conjunction with the Plastics Recycling Conference, and the other meetings are generally held over three days in June and October. Meetings consist of a General Session, Committee Meetings, and networking breaks. You can find more information about the upcoming meetings [here on APR's website](#).

Get Involved with a Committee

APR boasts several active committees that can help you stay engaged with current trends and help advance the plastics recycling industry. APR members often cite participation in these committees as one of the most important aspects of their membership. [Click here](#) to learn about each committee, including how to join.

Become an APR Recycling Demand Champion

APR Recycling Demand Champions commit to purchase new volume PCR through “work in process” (WIP) durable goods, or other applications for PCR, and thereby play a prominent role in expanding the market for mixed residential plastics, driving investment, increasing supply and producing more high quality PCR. This campaign also includes any and all new applications for PCR.

[Click here](#) to learn more about the campaign, or visit our [website](#) to see which companies are already participating.

Stay Connected with APR on Social Media

Follow APR on social media for industry news, member highlights and more. Have news to share about your company? Let us know and we'll help spread the good news, too.

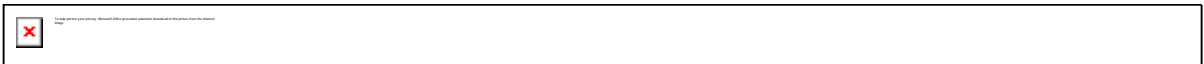

Boost Sales with the Buyers & Sellers Directory

APR provides a complete directory of materials that APR members purchase and sell, as well as services (grinding, densifying, washing, pelletizing, compounding and solid stating) provided by APR members. Get your company into this helpful directory and connect with more customers.

If you would like to list your company in the directory, please have the primary member of your organization update the Buyers & Sellers Directory section at the bottom of the company profile in GlueUp. This information will then automatically populate in the Buyers & Sellers Directory on our website. Market and Service Directories are available for:

- PET Market
- Polyethylene and Polypropylene
- Plastic Film Market
- Additional Resin & Plastic Materials
- Services Provided by APR Members
